

Tdap and Meningococcal vaccines for 2021-2022 school year

All students entering the 7th or 8th grade must have a current Tdap vaccine received after age 7 in addition to the other required vaccines.

In addition, beginning in the **2021-2022 school year, students entering grades seven must have received one dose of the Meningococcal (Meningitis) vaccine** (two-dose series) before the start of the school year. *Conditional enrollment is not allowed for this vaccine.*

If you have questions regarding these requirements, please contact the school nurse at Bayside Middle 7th/ 8th gr campus.

Documentation showing that your child has received both a Tdap and a Meningitis Vaccine must be provided to the middle school nurse before a student's 2021/2022 class schedule can be given.
